# Lifetime Free Website Hosting (Cloudflare Pages)

Host any business website, portfolio or landing page with Free SSL & Unlimited Bandwidth for ₹0 forever.

Free Cloudflare Account (Zero Card) | Your Custom Domain | Website Folder with `index.html`

## 1 Open Cloudflare Pages

Cloudflare dashboard me login karein. Left menu me **Workers & Pages** par click karein, **Create an application** chunein, aur **Pages** tab me jayein.

👉 Option chunein: **"Upload your static files"** (Zero coding / No GitHub required).

## 2 Folder Drag & Drop Karein

Project Name daalein (jaise `my-website`). Ab apne computer se website folder ko pakad kar dashed box me drop karein aur **Deploy site** par click kar dein.

⚠️ **Zaroori Rule:** Folder ke andar home page ka naam `index.html` hona chahiye.

## 3 3 Seconds Me Site Live (Region: Earth)

Cloudflare aapki files ko poori duniya ke 300+ edge servers par deploy kar dega. Aapko turant ek live preview link mil jayega:

🔗 `https://my-website.pages.dev`

## 4 Apna Custom Domain Connect Karein

Pages project me **Custom domains** tab par jayein. **Set up a custom domain** click karke apna domain likhein (jaise `site.yourdomain.com` ya `yourdomain.com`) aur **Activate** dabayein.

| TYPE | NAME | TARGET | PROXY |
|---|---|---|---|
| CNAME | site | my-website.pages.dev | Proxied |

## 5 Green SSL Lock & Lifetime ₹0 Cost 🔒

Cloudflare 1-click me automatic Free SSL certificate activate kar deta hai. Aapki website lightning-fast 18ms speed ke saath hamesha ke liye live ho chuki hai!

### 💡 Important Pro Tips

- ✓ **Future Updates:** Simple naya folder drag-drop karke update ho jata hai.
- ✓ **Multi-Site:** Ek account me 100 alag-alag websites bilkul free chal sakti hain.
- ✓ **Free Templates:** HTML/Canva portfolio templates ke liye Instagram par comment karein.
- ✓ **₹0 Savings:** GoDaddy/Hostinger ko ₹4,000/yr dena band!
